Dear Jason Hampton

Healing deserves broader recognition. As a prominent Graphic Design professional from Australia, we would be pleased to acknowledge and recognize your Graphic Design excellence.

I have prepared a digital presentation here: <https://designthinkingawards.com/> and I am attaching our 2026 Catalog, detailing our program for the 2025-2026 recognition of excellence in Graphic Design, design, architecture, creativity, engineering and technology.

Our program is open to products, projects and designs, in all industries, especially Graphic Design. Entries from Australia are welcome.

Each eligible laureate on average gains 138+ media placements in our 3.686 big media network.

Deadline is on February 28, I recommend uploading your work this week for a an early review.

If you have any questions or comments, please contact me back,

Kindest Regards,

Makpal Bayetova.

PS: We have reached over 2.7M YouTube Subscribers. Thank you for making it happen. Please share with your network in %CITY% and help us create a global appreciation for good Graphic Design worldwide.
